(54) Title: AUTHENTICATABLE COSMETIC PACKAGING DEVICE

(57) Abstract: Packaging device for a cosmetic product including at least one container (1) forming at least one compartment in which said cosmetic product is directly or indirectly placed, and including at least one authentication element (3), said authentication element incorporating at least one first chemical reagent capable, when placed in contact with a second chemical reagent present on a counterpart authentication element (5), of producing a detectable change, notably of a visual nature, in the second reagent on the counterpart authentication element. Counterfeit detection kit for use with such a packaging device and non-destructive process for detection of a possible counterfeit packaging device for a cosmetic product.
